

HASIB AHMED

SOFTWARE QUALITY ASSURANCE ENGINEER

+880 187 045 1231 · +880 170 677 6711 · info.hasibahmed@gmail.com · hello@hasib.online · Rangpur, Bangladesh

PROFESSIONAL SUMMARY

Results-driven SQA Engineer with hands-on experience delivering quality assurance across **9+ diverse projects** — spanning fintech, government portals, e-commerce, and mobile applications. Specialises in **Playwright automation (Python & JavaScript)**, API validation, and end-to-end test strategy in fast-paced Agile environments. Proven track record of reducing post-release defects through systematic test planning, edge-case coverage, and close collaboration with development teams. Comfortable owning UAT cycles independently and communicating findings to both technical and non-technical stakeholders.

CORE COMPETENCIES

Testing Manual Testing · Functional & Regression Testing · UAT · Smoke & Sanity Automation Playwright (Python & JS) · API Automation · Postman Security & Performance CSRF / XSS / SQL Injection validation · Load & Stress Testing	Tools & Workflow JIRA · TestRail · Postman · Git / GitHub · CI/CD awareness Platforms Android · iOS · Web (Admin Portals, SPAs) · REST APIs Development (supporting) HTML · CSS · JavaScript · PHP · Node.js

WORK EXPERIENCE

Software Quality Assurance Engineer Parallaxlogic Infotech

2024 – Present | Dhaka, Bangladesh

- Delivered QA across **9+ projects** covering mobile (Android/iOS), admin web portals, government systems, and e-commerce — consistently meeting release deadlines in Agile sprints.
- Designed and maintained **150+ test cases** for the Queue Management System alone, achieving comprehensive coverage of authentication, role-based access, and edge-case failure flows.
- Reduced post-release defect leakage on CG Pay (digital banking) by identifying critical payment-flow and OTP-verification bugs prior to production deployment through targeted API & regression testing.
- Led API validation using **Postman** across all projects, ensuring backend data consistency and surfacing SQL query issues in Army 37 AD Regiment IMS before go-live.
- Executed security testing (CSRF, XSS, SQL Injection prevention) for Dorojay.com multi-vendor e-commerce platform, strengthening compliance before public launch.
- Collaborated directly with developers during UAT cycles, providing clear defect reports that cut average bug-resolution time and improved sprint velocity.
- Wrote automation scripts using **Playwright (Python & JavaScript)** for regression suites, enabling faster re-test cycles on web applications.

KEY PROJECTS & CONTRIBUTIONS

Wyzr Friends – Social Networking App <i>Mobile · Android & iOS</i> End-to-end test cases for core social features; validated push/in-app notifications with deep linking; API testing for backend data consistency; UAT & release readiness.	CG Pay – Digital Mobile Banking <i>Admin Dashboard</i> Tested registration, login, transactions & balance checks; validated OTP & secure auth flows; API testing for financial transactions; identified critical payment-flow bugs before release.
---	---

Army 37 AD Regiment – IMS

Admin Web Portal

Complex filter-based test scenarios for soldier data; debugged SQL query issues; role-based access & admin function verification; edge-case & negative test scenarios.

Queue Management System (QMS)

Enterprise Web App

Developed 150+ test cases covering auth, queue flow & access control; validated emergency access & session handling; security & edge-case testing.

Muradnagar – Digital Citizen Portal

Gov't Web Portal

Citizen service & development module testing; API testing for backend integration; user access control & role-based functionality verification.

Incident Response Application

Admin Panel + Mobile

Incident reporting with real-time sync; auth, notification & API testing; UAT & regression testing.

JICA/BFSA – Food Inspection Portal

Gov't Admin Portal

Tested food inspection & lab workflows for compliance; validated report generation & approval processes; role-based access control for multiple admin levels.

Dorojay.com – Multi-Vendor E-commerce

Web Application

Full e-commerce workflow testing (browse→cart→checkout); security testing (CSRF, XSS, SQL Injection); API testing for product, order & user modules; UAT before deployment.

BGB Reporting System (LI Cell)

Admin Dashboard

Report generation & dashboard testing; filter-based reporting validation; data accuracy checks; secure access & data export verification.

EDUCATION

Bachelor of Science – Computer Science & Engineering

Southeast University, Dhaka · 2021 – Present (Expected 2026)

Higher Secondary Certificate (Science)

Sathibari College · 2016 – 2020 · CGPA: 3.42 / 5.00

Secondary School Certificate (Science)

Ideal Public School · 2014 – 2016 · CGPA: 5.00 / 5.00

TRAINING & LANGUAGES

Professional Training

Digital Marketing — Learning & Earning Development Project (2020)

Languages

Bengali — Native proficiency
English — Professional working proficiency
